

SARCINA PRACTICĂ 1

1. Citește cu atenție specificația - <https://faq-qa.m.goit.global/ro/>
 2. Înregistrează-te pe TestRail - <https://www.gurock.com/testrail/>
 3. Scrieți cazuri de testare pentru cinci funcții oricare ale produsului pentru a fi verificate ulterior.
- Vă rugăm să rețineți că pentru fiecare Step ar trebui să existe Expected Result.

Important! Nu descriem bug-uri, ci doar introducem un caz de testare. Dezvoltatorii încă lucrează la site, iar mâine ni-l vor da pentru testare.

The screenshot displays the GoIT TestRail web application. The main header includes navigation links like 'Return to Dashboard', 'OVERVIEW', 'TO-DO', 'MILESTONES', 'TEST RUNS & RESULTS', 'TEST CASES', and 'REPORTS'. The 'TEST CASES' tab is active, showing a test case titled 'Modificare Limba' (Change Language). The test case details include:

- Type:** Functional
- Priority:** Medium
- Assigned To:** None
- Estimate:** None
- References:** None
- Automation Type:** None

The 'Preconditions' section contains a long URL for the application. The 'Steps' section lists two steps:

1. Muta cursorul deasupra "EN"
2. Click pe "EN"

The 'Expected Result' section contains the text: '1. Limba site-ului se modifica in limba engleza.'

On the right side, there is a sidebar with sections for 'Details', 'Tests & Results', 'Defects', 'History', 'People & Status', and 'Unassigned Change'. The 'People & Status' section shows the test case was created and updated by Bogdan Ardelean on 4/9/2024 at 8:17 AM.
