The INCOME transactions summary list is not displayed on desktop devices

📎 Attach 👤 Add a child issue 🔗 Link issue ▾

Description

The Transactions summary is not displayed in the transactions list section. All transactions registered in the current year should be displayed in descending order from current month to the start of the year.

Environment: Staging

Browser: Google Chrome

Pre-conditions: Authorized user is logged in and Cashify app's main page - <https://kapusta-qa-ro.p.goit.global/transactions/expenses> is open in Browser.

Steps to reproduce:
1. Click on the INCOME tab

Actual result: In the Transactions list section, none of the previously registered Income transactions are displayed.

Expected result: In the Transactions list section, all registered Income transactions are listed in descending order from current month to the start of the year

Priority: Medium

Severity: Major

The date field is reset when clearing data for an Expense transaction (desktop devices)

Attach Add a child issue Link issue

Description
After selecting a date and filling out the Product description, Product category and Transaction sum fields in the Transaction input form and selecting the CLEAR button, all inserted details should be cleared with no change made to the Date field.

Environment: Staging

Browser: Google Chrome

Pre-conditions: Authorized user is logged in and Cashify app's main page - <https://kaouda-na-na.goit.global/transactions/expenses> is open in Browser.

Steps to reproduce:

1. Click on the EXPENSES tab
2. In the Transaction input form, select a different date than the current one
3. Fill out the Product description, Product category and Transaction sum fields with valid values
4. Click the CLEAR button

Actual result: The Product description, Product category and Transaction sum fields are all cleared of the inserted values however the Date field is reset to the current date.

Expected result: The Product description, Product category and Transaction sum fields are all cleared of the inserted values and there is no change made to the Date field.

The EXPENSES monthly summary box is missing from layout on smartphone

📎 Attach 👤 Add a child issue 🔗 Link issue ▾

Description

After registering a transaction using the Transaction input form, the transaction is added to the list and the balance and monthly transactions summary are updated.

Browser: Google Chrome

Pre-conditions: Authorized user is logged in and Cashify app's main page - <https://kaqusta-na-ro.q.goit.global/> is open in Browser.

Steps to reproduce:

1. Tap on the EXPENSES button located in the bottom left side corner of the main page
2. In the Expenses transactions page, add a product description, select a product category and insert the transaction sum
3. Tap the INPUT button

Actual result: The transaction is added to the transactions list and the balance is updated however the Summary box is not updated as it is missing from the mobile layout of the app

Expected result:

- the transaction is added to the transactions list
- the balance decreases by the amount of the transaction sum
- the total transactions value is updated with the transaction sum in the Summary box for the month in which the transaction was registered

Description

When scrolling to the bottom of the app's main page, a summary box should appear displaying every month from the start of the year to the current month with the total transactions sum (Expenses/Income) for each month.

Environment: Staging

Browser: Google Chrome

Pre-conditions: Authorized user is logged in and Cashify app's main page - <https://kaqusta-pa-ro.q.goit.global> is open in Browser.

Steps to reproduce:

1. Scroll down to the bottom of the app's main page.

Actual result: The Expenses Summary box is missing.

Expected result: The Summary box is displayed with the total expenses for each month from the start of the year to the current month.

Priority: Medium

Severity: Minor
