

**1. Este dată o diagramă a componentelor unei rețele sociale. Trebuie să realizezi integrarea componentelor All Friends și Add Friend.**

- a) Indică ce abordare a Integration Testing ar fi potrivită, având în vedere că următoarele componente - All Friends, Events, Groups, nu au fost încă implementate complet.

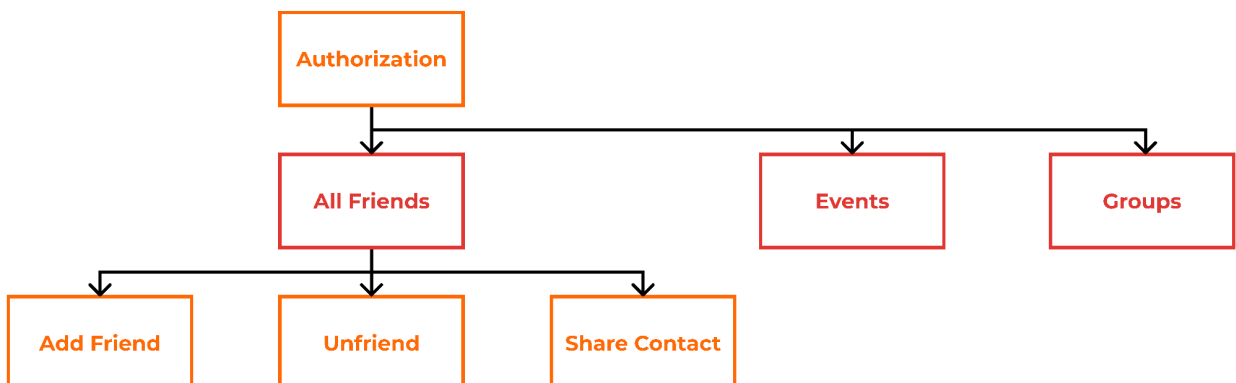

Abordarea Bottom-up.

- b) Justifică-ți alegerea (de ce ai ales această abordare?).

Abordarea Bottom-up este potrivita deoarece componentele de nivel inferior (Add Friend, Unfriend si Share Contact) sunt pregatite dar componenta All Friends nu este.

Describe ordinea în care ai testa integrarea componentelor din această diagramă folosind abordarea pe care ai ales-o la punctul (a) (de exemplu: mai întâi aş testa integrarea dintre "Authorization" și "All friends", apoi "Authorization" și "Events" etc.).

1. Add Friend - All Friends
2. Unfriend - All Friends
3. Share Contact - All Friends
4. All Friends - Authorization
5. Events - Authorization
6. Groups - Authorization

2. Creează un checklist pentru testarea aplicației web <https://altex.ro/> la nivel de Acceptance Testing. Identifică cel puțin 3 bug-uri și note cel puțin 3 bug reports.

## Site crashes when adding product to shopping cart

Attach Add a child issue Link issue

**Description**

Website fully crashes when attempting to add any random product to the shopping cart.

**Browser:** Microsoft Edge

**Pre-conditions:** Website [Electronice si electrocasnice online la cel mai mic pret](#) must be open in the Browser.

**Steps to reproduce:**

1. Scroll down to any product listed on the website's main page.
2. Click the "Add to cart" button located underneath the product's photo, description and price.

**Actual result:** The site crashes and the message "Oops, something went wrong. An unknown error occurred." is displayed.

**Expected result:** A pop-up window appears with the selected product added to the shopping cart. An additional smaller pop-up appears in the top-right corner of the page with the message "Cart has been updated".

**Priority:** High

**Severity:** Blocker
